

I. International Congress of Corneal Cross Linking

CCL

Zurich, Switzerland, December, 9th-10th, 2005

Corporate Sponsors:

Priavision AG
Medilas AG
WaveLight Laser Technologie AG

Program Highlights:

- Historical perspectives
- Scientific advances
- Biomechanics of the cornea
- Clinical outcomes
- Future applications

Scope

This topical meeting will provide an international forum for presentation and discussion of the most recent advances in Corneal Cross Linking from a historical, scientific and clinical perspective.

*„Short course in basics of
diagnostical methods and
biophysical properties that are
associated to clinical corneal
cross-linking including corneal
topography, wavefront
sensing, biomechanics,
physiological optics, and light
induced cell damage“*

Meeting information:
<http://www.ccl-congress.ch>
Site active: May 1st, 2005

Early registration fees by **09/15/2005** is CHF 420.00 (short course not included). For more information fax flyer to: CBS Congress & Business Services, Technoparkstrasse 1, CH-8005 Zurich, Switzerland. Fax: ++41 (44) 4453455; electronic information and e-mail through web page listed above.

This short course is for clinicians that are new in the field of corneal cross linking and will be held immediately prior to the congress on December 9th in Zurich, Switzerland.

Registration fee includes:

- Access to outstanding presentations
- Attendance to congress
- Sensational Saturday night dinner
- Lunch
- Coffee breaks
